SANILUTION RESCUE GUARD™

 **Dry Misting technology** 

Complete decontamination in 30 minutes!

Developed specifically to assist hard pressed ambulance crews to achieve a 30 minutes full decontamination of the patient cabin area, Sanilution RESCUE GUARD™ ensures no cross-contamination between patients.

- ✓ Complete decontamination of all areas in under 30 minutes
- ✓ Kills 99.9999% of all known pathogens
- ✓ Simple, safe and effective – harmless to people, plants & animals
- ✓ No training required
- ✓ Digital timer ensures measured 'cut off'
- ✓ Unit can be fully integrated in the ambulance interior
- ✓ Controlled from unit or Driver's cabin
- ✓ 24v, 110v or 240v connection
- ✓ Produces a fine 'dry mist' that gets into difficult to reach areas
- ✓ 1.2 micron mist stays in the air longer to kill airborne pathogens
- ✓ Kills germs on contact with hard surfaces in under 1 minute
- ✓ Part of the exclusive Sanilution Biotechnics range of products
- ✓ Manufactured in the Netherlands 
- ✓ CE approval

Product Specification:

Width - 197mm

Height – 280mm

Depth – 191mm

Weight: 7kg

Warranty: 2 years
